EXPORT ORIENTED UNIT

ABOUT US

Riba Textiles Limited is a 100% Export Oriented Unit (EOU) engaged in the manufacture of terry towels, bath mats and allied home-textile products, headquartered at DD-14, Nehru Enclave, New Delhi, with its manufacturing facility at Village Chidana, Tehsil Khanpur Kalan, District Sonapat, Haryana roughly 100 km from New Delhi. Founded in 1989, the company has grown into one of India's established names in the terry towel and bath-linen export business, serving customers across North America, Europe, Asia, Oceania and India.

Riba is listed on the BSE (Scrip Code: 531952) and holds a Government of India Star Export House status, alongside certifications including Made in Green, OEKO-TEX Standard 100, Better Cotton Initiative (BCI), GOTS, RCS, ISO 9001:2015 and BSCI 2.0 — reflecting its commitment to quality, compliance and responsible manufacturing.

The company also markets a consumer-facing brand, SENSES by Riba, sold directly through its own e-commerce site and via Amazon, Flipkart and Myntra — an example of the group's move from a pure B2B export model toward omni-channel presence.

OUR VISION

To be recognised globally as the most trusted manufacturer of premium terry towels and home textiles synonymous with consistent quality, ethical manufacturing and design-led innovation.

MISSION

Deliver world-class terry towels and bath textiles that meet the highest international quality and compliance benchmarks.

Continuously modernise manufacturing infrastructure to improve efficiency, consistency and sustainability.

Build long-term partnerships with global retailers and brands through reliability and transparency.

Expand our own consumer brand, SENSES by Riba, while strengthening our core export business.

Uphold the wellbeing, safety and growth of every employee across our facilities.

ASHA GARG

CHAIRPERSON

MESSAGE FROM THE FOUNDER

It gives me great pride to present this year's Annual Report of Riba Textiles Limited, a year in which we continued to strengthen our position as a trusted global manufacturer of terry towels and home textiles. The past year has reflected the strength of our business, the dedication of our people, and the trust of our customers and stakeholders. Despite global economic challenges, we remained focused on delivering quality products, strengthening our export presence, and creating long-term value.

As trusted manufacturer and exporter of terry towels, we continue to invest in innovation, operational excellence, and sustainable manufacturing practices. Our commitment to quality, customer satisfaction, and responsible growth remains at the heart of everything we do. I sincerely thank our employees, customers, business partners, and shareholders for their continued confidence and support. Together, we look forward to building on our achievements and pursuing new opportunities with optimism and determination.

MRS. ASHA GARG

Chairperson & Whole Time Director

Place: Panipat

INDUSTRY LANDSCAPE

The global home textiles and terry towel industry continues to be shaped by shifting trade dynamics, rising cotton and energy costs, evolving sustainability regulations in key export markets (EU, US), and increasing buyer preference for certified, traceable manufacturing. India remains among the top global exporters of terry towels and bath linen, competing chiefly with China, Pakistan, Turkey and Bangladesh on cost, quality and compliance.

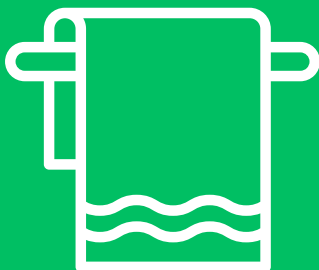

\$ 137.81 BILLION

Global Home Textile Market Size (2025), growing at 6.9% CAGR to \$231.4B by 2033 — Grand View Research

19%

Effective US tariff on Indian cotton textiles (Section 122 + MFN base, Feb 2026) — vs ~44% for China

11%

India's terry towel export growth rate (TTM Jun'24-May'25), with India leading global exports at 395,133 shipments ahead of Pakistan and Vietnam, Volza Trade Data

OPERATIONS AND RISK MANAGEMENT

Our operations span weaving, yarn and fabric dyeing, preparatory, shearing, stitching, embroidery and packaging, run out of our Sonipat (Haryana) facility. Key risks monitored during the year included raw cotton price volatility, currency fluctuation (given our export-heavy revenue base), global freight and logistics disruption, and evolving compliance requirements in key export geographies.

- Specific risk mitigation actions taken this year (hedging policy, alternate sourcing, insurance, compliance audits)
- Any notable operational disruptions or resolutions (e.g., power, labour, logistics)

RESEARCH AND DEVELOPMENT

Our in-house design and R&D efforts this year focused on new weave structures, MicrobeSafe-treated fabric technology, and expanding our jacquard and embroidery capabilities to support premium and made-to-order product lines for global buyers.

MODERNISATION AND INVESTMENTS

- Capex undertaken this year (new looms, dyeing lines, effluent treatment upgrades, automation, ERP/IT systems)
- Planned investments for next year

OUTLOOK

Looking ahead, we remain focused on strengthening our export franchise, scaling our SENSES by Riba consumer brand, and continuing to invest in sustainable, technology-led manufacturing — while staying watchful of global trade and cotton-price volatility.

With warm regards,

[Amit Garg], [Managing Director] | Riba Textiles Limited

ABOUT OUR LEGACY

Founded in 1989, Riba Textiles has spent over three decades building a reputation as a dependable, quality-focused terry towel manufacturer for global markets — evolving from a single manufacturing base into a fully integrated export house recognised with a Government of India Star Export House status.

OPERATING ENVIRONMENT

The company operates within a global home-textiles trade environment shaped by cotton price cycles, energy costs, currency movements (given export-led revenue), evolving EU/US sustainability and traceability regulations, and competitive pressure from Pakistan, China, Turkey and Bangladesh.

- Specific tariff/trade policy developments this affecting your key export markets year
- Domestic policy factors relevant to you (e.g., RoDTEP, PLI for textiles, cotton MSP changes)

BUSINESS MODEL

Riba operates a vertically integrated, export-led manufacturing model – controlling weaving, dyeing, finishing and stitching in-house – supplemented by a growing direct-to-consumer channel (SENSES by Riba) that captures additional margin closer to the end consumer.

GROWTH STRATEGY

- Deepen wallet-share with existing global retail clients through expanded product ranges
- Scale SENSES by Riba across e-commerce marketplaces and own D2C
- Pursue certifications and capacity that unlock new geographies /retailers
- Selectively invest in automation to protect margins against low-cost competition

DID YOU KNOW?

- Riba Textiles is a Government of India recognised Star Export House and a 100% Export Oriented Unit.
- Riba's manufacturing unit sits roughly 100 km from New Delhi, in Sonipat, Haryana.
- Riba holds certifications across GOTS, RCS, BCI, OEKO-TEX Standard 100, Made in Green, ISO 9001:2015 and BSCI 2.0.
- Riba showcases its ranges annually at Heimtextile, Frankfurt — one of the world's leading home-textile trade fairs.
- A fun production-scale fact (e.g., 'enough towels produced each year to wrap around X km')
- A fun water/energy-saving fact from your sustainability initiatives

OUR MANUFACTURING CAPABILITIES

Riba is a fully integrated textile manufacturing unit covering weaving, yarn and fabric dyeing, preparatory, shearing, stitching, embroidery and packaging - supported by automatic side cutting & stitching and WRAP-approved robe cutting & stitching lines.

CAPABILITY AREA	DETAIL
Weaving	Shuttle-less air jet looms (SMIT/Tsudokoma)
Dyeing	Yarn & fabric dyeing
Design & Patterning	Electronic dobbies & jacquards (Staubli, Bonas); CAD (Nedgraphics)
Finishing	Aero tumbling (Biancalani); shearing (Heinz Hergert)
Stitching & Embroidery	Schmaledurate stitching; Barudan embroidery
Cutting & Packaging	Automatic side cutting & stitching; WRAP-approved robe lines; bale/bundle packing
Installed Capacity	9000 metric tonn per year
Workforce (Production)	800 Direct & Indirect both

TRAINING & DEVELOPMENT

- On-the-job / apprenticeship programmes for production staff
- Skill upgrade programmes (e.g., on new machinery, quality systems)
- Leadership/management training initiatives

HEALTH & SAFETY

- Safety certifications or standards followed (e.g., fire safety, machine safety audits)
- Health & wellness programmes for factory workforce
- Safety performance metrics (e.g., lost-time-injury rate, safety training hours)

SUSTAINABILITY INITIATIVES

Riba's certification portfolio — GOTS, RCS (Recycled Claim Standard), BCI (Better Cotton Initiative), OEKO-TEX Standard 100 and Made in Green — already signals a strong sustainability foundation across raw material sourcing, chemical safety and social compliance.

- Water usage / recycling initiatives at the dyeing unit
- Energy efficiency or renewable energy adoption
- Waste reduction / recycled fibre usage initiatives
- Any community or CSR programmes (per your CSR Policy on file with BSE)

MANAGEMENT DISCUSSION AND ANALYSIS

OPPORTUNITIES AND THREATS

- Opportunities (e.g., China+1 sourcing shift, growing D2C, sustainability-linked demand)
- Threats (e.g., cotton price volatility, freight costs, competitor pricing, tariff risk)

SEGMENT-WISE PERFORMANCE

Per Note 31 (Segment Reporting) of the audited FY2025-26 financials, the Company operates in a single reportable business segment (manufacture of terry towels, bath mats and allied home textiles) under Ind AS 108. Geographically, export revenue was ₹228.48 crore (89.3% of total operating revenue) and domestic revenue was ₹18.41 crore (10.7%) in FY2025-26, compared to ₹262.36 crore (88.7%) and ₹33.50 crore (11.3%) in FY2024-25 — the domestic share held broadly steady while both channels declined YoY. SENSES by Riba (D2C) revenue is not broken out separately in the audited statements and would need to be provided by management.

OPEN ITEMS CHECKLIST

A consolidated list of everything flagged for your team across this draft:

- DONE — Audited financial figures (revenue, EBITDA, PAT, EPS, export/domestic split) for FY2025-26 and FY2024-25 now incorporated from the audited financial statements; see full statements in the Annexure. Still needed: SENSES by Riba D2C revenue carved out separately, and 3-year figures for a proper ROE/growth trend.
- Board of Directors & core leadership team — names, designations, bios, headshots
- 3-5 real client testimonials (with permission to publish) or contacts we can approach
- Client names/logos you're able to disclose, or preferred anonymised descriptions
- Actual company milestones with years (BSE listing, certifications, Star Export House, SENSES launch, etc.)
- 4-8 headline stats for 'Highlights of the Year'
- Installed manufacturing capacity and current utilisation rate
- HR metrics: headcount, gender ratio, attrition, new hires
- Training & Development and Health & Safety programme details
- Sustainability specifics: water/energy/waste initiatives, CSR programme details
- Forward-looking roadmap items leadership is comfortable disclosing publicly

OPEN ITEMS CHECKLIST

- 3-6 short quotes for design pull-quote breakers
- Photography: factory floor, machinery, leadership, product shots, trade fair presence
- MD&A content reviewed/approved by Company Secretary and Statutory Auditor
- SENSES by Riba D2C revenue, HR headcount/gender ratio, installed manufacturing capacity, and training/safety metrics were not present in the audited financial statements provided and still require management input.
