## Rating Rationale

May 03, 2021 | Mumbai

### Riba Textiles Limited

*Rating outlook revised to 'Negative'; ratings reaffirmed*

#### Rating Action

<b>Total Bank Loan Facilities Rated</b>	<b>Rs.76.5 Crore</b>
<b>Long Term Rating</b>	<b>CRISIL BBB/Negative (Outlook revised from 'Stable' and rating reaffirmed)</b>
<b>Short Term Rating</b>	<b>CRISIL A3+ (Reaffirmed)</b>

*1 crore = 10 million*

*Refer to Annexure for Details of Instruments & Bank Facilities*

#### Detailed Rationale

CRISIL Ratings has revised its rating outlook on the long-term bank facilities of Riba Textiles Ltd (RTL) to '**Negative**' from 'Stable' and reaffirmed the rating at '**CRISIL BBB**'; the rating on the short-term facility has been reaffirmed at 'CRISIL A3+'.

The outlook revision reflects CRISIL's belief that RTL's business risk profile will weaken over the medium term. Revenue stagnated to Rs 124.21 crore in 9 months ending December 2020 for fiscal 2021 from Rs 121.16 crore for the same period in fiscal 2020, driven by lower demand on account of Covid impact. Operating margin was 9.36% in fiscal 2020, and is estimated at 8.34% in fiscal 2021 and might remain impacted on account of increased yarn prices and logistics costs. As a result, cushion between net cash accrual and repayment obligation is expected to remain low. Cash accrual is expected at Rs 9-12 crore over the medium term against repayment obligations of 5.25-9.08 crore, leading to lower cushion. The operating margin is likely to moderate over the medium term and may further weaken the debt protection metrics.

The ratings continue to reflect RTL's established market position in the textile industry, comfortable capital structure of the company and its efficient working capital management. These strengths are partially offset by susceptibility to volatility in raw material prices and intense competition and significant debt funded capex.

#### Key Rating Drivers & Detailed Description

##### Strengths:

- **Established market position:** RTL's moderate scale of operations provides operating flexibility in an intensely competitive industry. The promoters' experience of more than two decades, their strong understanding of market dynamics, and healthy relations with customers and suppliers should continue to support the business.
- **Comfortable capital structure:** Because of low reliance on external funds, the total outside liabilities to tangible networth was moderate, estimated at 0.95 time as on March 31, 2021.
- **Efficient working capital management:** Gross current assets were moderate at an estimated 94 days as on March 31, 2021, driven by receivables and inventory of 38 days and 48 days, respectively. Payables were 32 days as on March 31, 2021. The working capital cycle will be efficiently managed over the medium term.

##### Weaknesses:

- **Susceptibility to volatility in raw material prices:** Prices of polymers, key raw material, are volatile. As raw material cost comprises 60% of the operating income, the company is susceptible to increase in input prices.
- **Exposure to intense competition:** Most of the synthetic fabric produced in the country comes from the decentralised power loom and hosiery industry. Intense competition constrains scalability and pricing power, as reflected in revenue of Rs 177.3 crore in fiscal 2020. Moreover, revenue are estimated to remain stable in fiscal 2021 on account of the Covid-19 pandemic and slowdown in demand from export.
- **Significant debt funded capex:** Company has done capex of around Rs 13 crore in fiscal 2021 for addition of 8 new looms, the same has been funded through term debt of around Rs 7.5 crore. Further company has planned to do a capex of around Rs 44 crore for addition of 16 new looms and construction of building in fiscal 2022. The capex is expected to be funded through a term loan of Rs 31 crore and the remaining through internal cash accrual. The large amount of debt funded capex leading to higher repayment obligation and expected slowdown in demand going ahead, could lead to lower than anticipated cash accruals. Hence ramp-up in sales will remain critical to achieve growth in revenue and profitability, and hence, will be a monitorable.

**Liquidity: Adequate**

Net cash accrual, expected at Rs 12.3-17.3 crore per annum in fiscals 2022 and 2023, will cover yearly debt obligation of Rs 9.08-15.79 crore. Bank limit utilisation averaged 60% over the 12 months through February 2021. The promoters are expected to continue to provide timely financial support

**Outlook: Negative**

CRISIL Ratings believes the revenue and operating margin of RTL will remain under pressure over the medium term because of the weakened demand scenario.

**Rating Sensitivity factors****Upward factors**

- Increase in operating income by more than 25% and in operating margin by 200 basis points
- Higher net cash accrual leading to improved cushion between repayments

**Downward factors**

- Decline in operating income by more than 30%
- Fall in profitability due to delay in stabilisation of capex
- Large, debt-funded capital expenditure weakening the financial risk profile

**About the Company**

Incorporated in 1989, RTL manufactures and exports terry towels. It offers spa, yarn dyed, plain dyed, printed border and embroidered towels as well as bath robes. The manufacturing facility is in Sonipat, Haryana, with capacity of 7,000 tonne per annum. The products are sold under the brands Pashima Cotton, CASA FINA, Duex Fils, Jamaican Jax, Notting Hill, and Hard Castle and Leeds UK.

For the nine months ended December 31, 2020, RTL reported revenue of Rs 124.21 crore and profit after tax (PAT) of Rs 5.54 crore, compared with Rs 121.16 crore and Rs 6.32 crore, respectively, for the corresponding period of the previous fiscal.
